Data Analyst

Meridian Retail Analytics · Hyderabad, Telangana (Hybrid, 3 days in office) · Full-time · 1–3 years · ₹5–9 LPA

ABOUT THE COMPANY

Meridian Retail Analytics helps 60+ consumer brands in India understand store and online sales. We turn point-of-sale and e-commerce data into weekly decisions on pricing, stock and promotions.

ROLE OVERVIEW

As a Data Analyst you will own dashboards and analyses for two brand accounts, answer business questions with data, and present findings to category managers.

KEY RESPONSIBILITIES

- Write SQL to extract, clean and join sales, inventory and customer data
- Build and maintain Power BI or Tableau dashboards used by client teams
- Analyse promotions and pricing changes, including A/B test results
- Automate recurring reports with Python (pandas) and advanced Excel
- Present insights clearly to non-technical stakeholders

MUST-HAVE SKILLS

- SQL (joins, window functions, CTEs)
- Advanced Excel (pivot tables, lookups, Power Query)
- Power BI or Tableau
- Python with pandas
- Basic statistics
- Stakeholder communication

GOOD TO HAVE

- DAX
- A/B testing
- ETL tools or Airflow
- Retail or e-commerce domain experience

EDUCATION

Bachelor’s degree in Statistics, Mathematics, Economics, Engineering or Computer Science.
